

Your (Half Yearly Compliance Report) has been Submitted with following details

<b>Proposal No</b>	IA/MP/MIN/89876/2018
<b>Compliance ID</b>	1228812796
<b>Compliance Number(For Tracking)</b>	EC/M/COMPLIANCE/1228812796/2026
<b>Reporting Year</b>	2026
<b>Reporting Period</b>	01 Jun(01 Oct - 31 Mar)
<b>Submission Date</b>	27-05-2026
<b>RO/SRO Name</b>	Shri Kailash Chand Meena
<b>RO/SRO Email</b>	rj107@ifs.nic.in
<b>State</b>	MADHYA PRADESH
<b>RO/SRO Office Address</b>	Integrated Regional Offices, Bhopal
<b>Note:-</b> SMS and E-Mail has been sent to Shri Kailash Chand Meena, MADHYA PRADESH with Notification to Project Proponent.	

# **Dalmia** cement

To,  
The Addl. Principal Chief Conservator of Forests (C),  
Ministry of Env., Forest and Climate Change  
Regional Office (WZ), E-5  
Kendriya Paryavaran Bhawan,  
E-5 Arera Colony, Link Road-3, Ravishankar Nagar,  
Bhopal-462016

Date: 25.05.2026

**Subject: Janardanpur Limestone Mine (ML Area: 575.830 ha) at Villages: Bairiha, Patarhai & Janardanpur, Tehsil: Rampur Baghelan, District: Satna, Madhya Pradesh of M/s Dalmia Cement (Bharat) Ltd. - Submission of Half-Yearly Compliance-reg.**

**Ref: Environmental Clearance (EC) granted by MOEFCC, Govt. of India vide Letter No. J- 11015/13/2019-IA.II (M) dated 26.07.2021.**

Dear Sir,

With reference to above subject matter and referred letter, we are herewith submitting point wise Half-Yearly Compliance report of conditions laid down in Environment Clearance for the period **October 2025 to March 2026** for your kind perusal and record.

Thanking You

Yours Faithfully,

**For Dalmia Cement (Bharat) Ltd.**

(Dinesh Dixit)

HOD, Mines

4	Limestone	Million Tons per Annum (MTPA)	31/08/2026	4.0	291	4.0

## Conditions

### Specific Conditions

Sr.No.	Condition Type	Condition Details
1	MISCELLANEOUS	The Project Proponent shall implement the Rehabilitation of project affected families (PAFs) and payment of compensation to PAFs as per the policy and guidelines of the Central/State Government, as provided under the law.
<p><b>PPs Submission:</b> Agreed to Comply Noted. Lands are being purchased in mutual agreement with the land owners and compensation is paid as per the Policy and guidelines of the State Government/Central Government as provided under the law. The Land purchased is in a scattered form (Non-Contiguous). To expedite the Land acquisition to enable systematic mining, the SDM, Rampur Baghelan issued the order for fixation of Surface Compensation to be paid to the Land Owners and facilitate to enter upon land in ML area for mining after paying the due surface compensation. The matter is currently pending with the State Government, Madhya Pradesh. Copy of order attached as Annexure V.</p>		Date: 23/05/2026
2	WATER QUALITY MONITORING AND PRESERVATION	The Project Proponent should undertake regular monitoring of ground water level and surface water quality and take preventive measures for protection of water bodies within the lease area as well as nearby the mines.
<p><b>PPs Submission:</b> Agreed to Comply Noted. Ground Water level and surface water quality is being monitored regularly. All preventive measures will be undertaken for protection of nearby water bodies. Monitoring report on ground water level and quality is attached as Annexure- IV.</p>		Date: 23/05/2026
3	Statutory compliance	The Project Proponent should obtain permission for withdrawal of ground water.
<p><b>PPs Submission:</b> Complied Complied. CGWA NOC has been obtained for ground water abstraction and ground water seepage vide NOC no CGWA/NOC/MIN/ORIG/2021/13700 dated 18/03/2025 and valid upto 10/11/2025. Post this period there is application for surrender of NOC as there is no ground water abstraction structure in the lease. Copy of CGWA NOC surrender is attached as Annexure II.</p>		Date: 23/05/2026

4	LAND RECLAMATION	The topsoil, if any shall temporarily be stored at earmarked site(s) only and it should not be kept unutilized for long. The topsoil shall be used for land reclamation and plantation.
<p><b>PPs Submission:</b> Agreed to Comply Noted. Top soil is being temporarily stored at earmarked place in accordance with the approved mining plan and will be simultaneously used for greenbelt development/plantation in 7.5 m safety zone along ML boundary and in safety barrier along protective area. Topsoil will also be used for topping of the backfilled area to develop it for agriculture use.</p>		Date: 23/05/2026
5	MISCELLANEOUS	A seasonal nala namely Dila nala is excluded during grant of ML from the mining lease area which divided the mining lease in blocks and 50 m safety barrier along the nala will be left along the Nala and thick plantation shall be developed as a safety barrier.
<p><b>PPs Submission:</b> Agreed to Comply Noted. 50 m safety barrier will be left along the Nala and thick plantation will be undertaken in Safety barrier of Nala within mine lease as per the Action Plan submitted during grant of EC.</p>		Date: 23/05/2026
6	Human Health Environment	Regular surveillance on Silicosis shall be carried through regular occupational health checkup of 1/3 of the persons every year.
<p><b>PPs Submission:</b> Agreed to Comply Noted. At present mining activities are limited to initial mine development work only and intermittently carried out so pollution levels are below prescribed limits. Regular health checkup will be done as per DGMS guidelines.</p>		Date: 23/05/2026
7	MISCELLANEOUS	The Project Proponent shall conduct the detailed hydrogeological study and obtain the NOC from CGWA before intersection of ground water table. The mining operations shall be restricted to above ground water table and it should not intersect the ground water table till obtain the NOC from the CGWA.
<p><b>PPs Submission:</b> Complied Noted. Detailed Hydrogeological study have been undertaken by JM EnviroNet Pvt. Ltd. for Hydrogeological evaluation during grant of EC. CGWA NOC has been obtained for ground water abstraction and ground water seepage vide NOC no CGWA/NOC/MIN/ORIG/2021/13700 dated 3/18/2025 and valid up to 10/11/2025. As there is no dewatering structure in the period of NOC, application for surrender of NOC has been given, Copy of surrender CGWA NOC attached as (Annexure II) Hydrogeological Study report has already been submitted with previous Compliance report.</p>		Date: 23/05/2026
8	MISCELLANEOUS	The Project Proponent should develop community infrastructure including COVID health Centre at Village panchayats Janardanpur, Jamuna and Bairiha, providing Oxygen concentrators, beds, PPE Kits, Covid Care, support in vaccination, Awareness for COVID etc. with the proposed budgetary provision of Rs.150 lakhs as mentioned in letter no nil dated 13.06.2021.
<p><b>PPs Submission:</b> Partially Complied Noted. Support extended during Covid-19 pandemic by distributing masks, sanitizers in all villages. Ration support for 300 under privileged families. (Details submitted with previous compliance report) However, further activities will be undertaken as per the Action Plan submitted in the grant of EC.</p>		Date: 23/05/2026
9	Corporate Environmental Responsibility	The Project Proponent shall also organize employment-based apprenticeship/ internship training program every year with appropriate stipend for the youth and other programs to enhance the skill of the local people.

<p><b>PPs Submission:</b> Agreed to Comply Noted. Training and awareness camps organized to spread awareness about the various cement product and their application for the purpose of skill development and job creation. Photographs attached in previous report.</p>		<p>Date: 23/05/2026</p>
10	GREENBELT	<p>The Project Proponent shall undertake the plantation over 95.92 ha in peripheral zone and ensure that the plantation in peripheral zone and plantation along safety zone of nallah, road and habitation should be completed within 3 years from the date of commencement of mining operations with at least 90 percent survival rate. Causalities of the previous year should be replaced other than the saplings proposed to be planted every year.</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. Mining activity such as Initial mine development work is under progress at site. Land acquisition is also under progress. The Land purchased is in a scattered form (Non-Contiguous). To expedite the Land acquisition enable systematic mining, The SDM, Rampur Baghelan has issued the order for fixation of compensation payable to the land owners and facilitate to enter upon land in ML area after paying surface compensation to carry out Mining as per approved Mine Plan. Post acquiring the substantial contiguous land, mining operations with plantation/greenbelt development over 95.92 ha and plantation along safety zone of nallah, road and habitation will be carried out in desired manner as per the approved mining plan. 540 Numbers of Sapling planted in the current financial year. 1420 numbers of saplings have been planted till date in the ML area. Plantation Photos attached as Annexure- I.</p>		<p>Date: 23/05/2026</p>
11	AIR QUALITY MONITORING AND PRESERVATION	<p>The Project Proponent shall ensure that the air pollution control equipment like bag filter shall be installed at crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. The PP shall also undertake plantation all along the conveyor belt.</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. It is ensured that Air pollution control equipment as submitted in EIA/EMP report, such as Bag filters/dry fog system and automatic water spray system shall be installed at crusher. Crushed limestone shall be transported to interlinked cement project via covered conveyor belt to avoid generation of dust while transportation. Bag filters will be installed at each transfer points of conveyor belt. Plantation will be done all along the conveyor belt corridor.</p>		<p>Date: 23/05/2026</p>
12	MISCELLANEOUS	<p>The Project Proponent shall install conveyor belt from mines to cement plant and transportation is only through conveyor belt.</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. At present mining activities are limited to initial mine development work only. The Land purchased is in a scattered form (Non-Contiguous). However, crushed limestone shall be transported to the proposed interlinked cement project via covered conveyor belt.</p>		<p>Date: 23/05/2026</p>
<p><b>General Conditions</b></p>		
Sr.No.	Condition Type	Condition Details
1	Statutory compliance	<p>This Environmental Clearance (EC) is subject to orders/ judgment of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, Common Cause Conditions as may be applicable..</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted.</p>		<p>Date: 23/05/2026</p>

2	Statutory compliance	The Project proponent complies with all the statutory requirements and judgement of Hon'ble Supreme Court dated 2nd August,2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.
<b>PPs Submission:</b> Agreed to Comply Noted.		Date: 23/05/2026
3	Statutory compliance	The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict compliance of Judgement of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.
<b>PPs Submission:</b> Agreed to Comply Noted.		Date: 23/05/2026
4	Statutory compliance	The Project Proponent shall follow the mitigation measures provided in MoEF&Cc Office Memorandum No. Z-11013/57/2014-IAJI (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area".
<b>PPs Submission:</b> Agreed to Comply Noted. All measures in approved ROMP and DGMS guidelines as habitation related issues will be adhered when workings carried out near habitations.		Date: 23/05/2026
5	Statutory compliance	A copy of EC letter will be marked to concerned Panchayat / local NGO etc. if any, from whom suggestion / representation has been received while processing the proposal.
<b>PPs Submission:</b> Complied Complied. (Submitted with previous compliance report)		Date: 23/05/2026
6	Statutory compliance	State Pollution Control Board/Committee shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/ Tehsildar's Office for 30 days.
<b>PPs Submission:</b> Complied Noted.		Date: 23/05/2026
7	Statutory compliance	The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and web site of the Ministry of Environment, Forest and Climate Change ( <a href="http://www.environmentalclearance.nic.in">www.environmentalclearance.nic.in</a> ). A copy of the advertisement may be forwarded to the concerned MoEF&Cc Regional Office for compliance and record.

<p><b>PPs Submission: Complied</b> Complied. A public notice informing about grant of EC has been published in two newspapers named Dainik Jagaran and Navbharat on 4th August 2021 in English as well as in vernacular language i.e. Hindi. Copy of Advertisements were submitted with previous compliance report. Newspapers with advertisement have been submitted to the Regional Office of MoEFCC. (Submitted acknowledgement Copy with earlier compliance report).</p>		<p>Date: 23/05/2026</p>
8	Statutory compliance	<p>The Project Proponent shall inform the MoEF&amp;Cc for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred than mining operation shall only be carried out after transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.</p>
<p><b>PPs Submission: Agreed to Comply</b> Noted.</p>		<p>Date: 23/05/2026</p>
9	AIR QUALITY MONITORING AND PRESERVATION	<p>The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO2; CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PCUI, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.</p>
<p><b>PPs Submission: Agreed to Comply</b> Noted. Currently initial development work and land purchase is being done. The Land purchased is in a scattered form (Non-Contiguous). With the start of mining operation at planned capacity, online Ambient Air Quality Monitoring Stations will be established as prescribed to monitor critical parameters relevant for mining operations of air pollution as per the methodology mentioned in NAAQS Notification dated 18.11.2009. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. Monitored data will be displayed within 03 months in front of the main Gate of the mine site.</p>		<p>Date: 23/05/2026</p>
10	AIR QUALITY MONITORING AND PRESERVATION	<p>Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metaled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipment's/ machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEF&amp;Cc/ Central Pollution Control Board.</p>
<p><b>PPs Submission: Agreed to Comply</b> Noted. With the start of mining operation at reasonable capacity, regular water sprinkling will be done on haul road, loading and unloading and at transfer points to control fugitive dust emissions. Presently no HEMM is being engaged thereby pollution level are well below prescribed levels / Standard specified by MOEFCC/CPCB. Bag filters and automatic water spray system shall be installed when crusher is in operation. Emission generation will be regularly controlled and will be kept within the standard specified by MOEFCC/CPCB. Water tankers for water sprinkling are hired</p>		<p>Date: 23/05/2026</p>

as and when required during development. The AAQ monitoring report is attached as Annexure-IV.

11

**WATER QUALITY  
MONITORING AND  
PRESERVATION**

In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEF&Cc is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.

**PPs Submission: Being Complied**

Being Complied. Detailed Hydrogeological study have been undertaken by JM EnviroNet Pvt. Ltd. for Hydro-geological evaluation. As per the evaluation, it is observed that there will be groundwater seepage in the mine pits or groundwater intersection by mine workings during the plan period. CGWA NOC has been obtained for ground water abstraction and ground water seepage vide NOC dated 18/03/2025 and valid upto 10/11/2025. DCBL has already applied for surrender of NOC as no dewatering structures have been erected. Copy of CGWA NOC and surrender letter attached as Annexure II.

Date:  
23/05/2026

12

**WATER QUALITY  
MONITORING AND  
PRESERVATION**

Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.

**PPs Submission: Agreed to Comply**

Noted. During this compliance period, no major mining activities have been undertaken. Currently, the mining activities is limited to mine development and land purchase. No ground water has been abstracted during this compliance period. However, prior to ground water abstraction, to monitor the water level and quality, a network of existing wells and installation of new piezometers in consultation with concerned department will be established. Copy of water level monitoring report attached as Annexure -IV.

Date:  
25/05/2026

13

**WATER QUALITY  
MONITORING AND  
PRESERVATION**

The Project Proponent shall undertake regular monitoring of natural water course/ water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease and maintain its records. The project proponent shall undertake regular monitoring of water quality upstream and downstream of water bodies passing within and nearby/ adjacent to the mine lease and maintain its records. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. PP shall carryout regular monitoring w.r.t. pH and included the same in monitoring plan. The parameters to be monitored shall include their water quality vis-à-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEF&Cc. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre- monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.

<p><b>PPs Submission:</b> Agreed to Comply Noted. Monitoring of Natural water course/Water resources/ Springs and perennial is carried out Periodically. No obstruction/Alteration has been caused to the water bodies. Copy of Water monitoring reports attached as Annexure-IV.</p>		<p>Date: 25/05/2026</p>
14	<p><b>WATER QUALITY MONITORING AND PRESERVATION</b></p>	<p>Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No. J-20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment, Forest and Climate Change may also be referred in this regard.</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. No effluent has been generated during this compliance period due to the limited land development activities. However, the effluent generated from workshop, will be monitored regularly and monitored data will be uploaded/displayed as prescribed.</p>		<p>Date: 25/05/2026</p>
15	<p><b>WATER QUALITY MONITORING AND PRESERVATION</b></p>	<p>Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEF&amp;Cc annually.</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. Hydrogeological Study including Rain Water Harvesting Plan was prepared and submitted to CGWA along with the Application for NOC. NOC has been obtained from CGWA vide NOC with validity extended upto 10.11.2025 but as no ground water abstraction structure erected in the lease, surrender of CGWA NOC has been done. Rain water harvesting plan submitted to CGWA will be implemented. Copy of the same is already submitted with previous Compliance report.</p>		<p>Date: 25/05/2026</p>
16	<p><b>WATER QUALITY MONITORING AND PRESERVATION</b></p>	<p>Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. Currently, no waste water is generated during this compliance period as only land development work at mine site has been undertaken along with land purchase. However, with the advancement of mining activities, it will be ensured that the effluent generated from the workshop when established will be treated properly to conform to the prescribed standards. Valid CTO copy is attached as Annexure-III.</p>		<p>Date: 25/05/2026</p>
17	<p><b>WATER QUALITY MONITORING AND PRESERVATION</b></p>	<p>The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF&amp;Cc and State Pollution Control Board/Committee.</p>
<p><b>PPs Submission:</b> Partially Complied Noted. At present mining activities are limited to initial mine development work only and abstraction of ground water is not carried out, surface water in small quantities are used for plantation.</p>		<p>Date: 25/05/2026</p>

18	Noise Monitoring & Prevention	The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.
<b>PPs Submission:</b> Agreed to Comply Noted. PPV will be monitored when permission for blasting is obtained and blasting is carried out as per DGMS SOP.		Date: 25/05/2026
19	Noise Monitoring & Prevention	The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours.
<b>PPs Submission:</b> Agreed to Comply Noted. Mining operations will be carried out as per approved mining plan and adequate measures such as scheduled maintenance will be carried out to remove/reduce disturbance and noise within prescribed limits of day/night hours from the nearby habitation.		Date: 25/05/2026
20	Noise Monitoring & Prevention	The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs /muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective equipment.
<b>PPs Submission:</b> Being Complied Noted and Being Complied. At present mining activities are limited to initial mine development work only. The workings are carried out at very meagre level by manual mean. Additionally, One water tanker is engaged in the suppression of dust whenever required.		Date: 25/05/2026
21	MINING PLAN	The Project Proponent shall adhere to approved mining plan, inter alia, including total excavation (quantum of mineral, waste, overburden, interburden and top soil etc.); mining technology; lease area; scope of working (viz. method of mining, overburden & dump management, O.B & dump mining, mineral transportation mode, ultimate depth of mining, concurrent reclamation and reclamation at mine closure; land-use of the mine lease area at various stages of mining scheme as well as end-of-life; etc.
<b>PPs Submission:</b> Being Complied Noted. Presently Mining operation are limited to land purchase and initial land development. Mining Operations will be carried out in accordance with the approved review of mining plan.		Date: 25/05/2026
22	MINING PLAN	The land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life shall be governed as per the approved Mining Plan. The excavation vis-à-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEF&Cc and its concerned Regional Office.

<p><b>PPs Submission:</b> Agreed to Comply Noted. Mining operation and reclamation-rehabilitation of mined out area will be carried out in accordance with the approved mining plan and half yearly compliance status is being submitted to the MoEFCC and its concerned regional office.</p>		<p>Date: 25/05/2026</p>
23	LAND RECLAMATION	<p>(1) The Overburden (O.B.) generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by D.G.M.S w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of top soil/OB dumps. The topsoil shall be used for land reclamation and plantation</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. There is no dump formation during this compliance period. OB/waste excavated will be dumped temporarily as it will be simultaneously used for preparation of ramp and platform for crusher and backfilling. However, physical parameters of the OB dumps will be maintained as per the approved Mining Plan and also as per the guidelines/circulars issued by D.G.M.S. Top soil will be dumped temporarily at north side of the proposed working area and will be used for land reclamation and plantation.</p>		<p>Date: 25/05/2026</p>
24	LAND RECLAMATION	<p>The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors thereby ensuring proper filling/ leveling of dump mass. In critical areas, use of geo textiles/ geo-membranes / clay liners / Bentonite etc. shall be undertaken for stabilization of the dump.</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. No dump has been formed during this compliance period. As per the approved mining plan, there will be temporary dumps as OB/waste will be simultaneously used for backfilling and topsoil will be simultaneously used for greenbelt/plantation in safety barrier and for topping of backfilled area. However, all recommended measures for stability of dumps as and when developed such as slope, height and terrace of dumps, construction of garland drains and retaining walls etc. will be undertaken as per approved mining plan and guidelines of DGMS.</p>		<p>Date: 25/05/2026</p>
25	LAND RECLAMATION	<p>Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB/Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/ Pond etc.). The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains/ sedimentation sumps etc. shall be de-silted regularly, particularly after monsoon season, and maintained properly.</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. As mentioned above that as per Approved Mining Plan, protective measures such as Garland drains along with settling tanks, siltation ponds, retaining walls etc. will be constructed at base of dumps to arrest silt and sediments.</p>		<p>Date: 25/05/2026</p>
26	LAND RECLAMATION	<p>Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge in the</p>

		mine and its adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments/ silt material. The sedimentation pits/ sumps shall be constructed at the corners of the garland drains.
<p><b>PPs Submission:</b> Agreed to Comply Noted At present mining activities are limited to initial mine development work only. Protective measures will be adopted during the progress of the mine as per the approved Review of Mining Plan.</p>		<p>Date: 25/05/2026</p>
27	AIR QUALITY MONITORING AND PRESERVATION	<p>No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers. [If applicable in case of road transport].</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. Limestone from the mine shall be transported to the interlinked cement project by covered conveyor belt.</p>		<p>Date: 25/05/2026</p>
28	AIR QUALITY MONITORING AND PRESERVATION	<p>The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipment's like bag filters, vacuum suction hoods, dry fogging system etc. shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.</p>
<p><b>PPs Submission:</b> Agreed to Comply Noted. Currently, Water tankers are hired as and when required as the mining activities are limited to initial land development and not carried out on regular basis. With the advancement of mining operation, all the measures shall be implemented as per the provisions of EMP given in EIA/EMP report to control fugitive dust emissions such as permanent water sprinkling arrangement at the main haulage road , Bag filters will be installed at crusher and transfer points on conveyor belt, use of covered conveyor belt etc.</p>		<p>Date: 25/05/2026</p>
29	GREENBELT	<p>The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining operations within the lease. The whole Green belt shall be developed within first 5 years starting from windward side of the active mining area. The development of greenbelt shall be governed as per the EC granted by the Ministry irrespective of the stipulation made in approved mine</p>

		plan.	
<p><b>PPs Submission:</b> Agreed to Comply Noted. The mining activities is currently limited to initial mine development and land purchase. Safety barrier (No mining zone) of 7.5m is demarcated all along the ML boundary and soon after, land development activities and land purchase, Greenbelt will be developed as per guidelines of CPCB and as per approved mining plan.</p>			Date: 25/05/2026
30	GREENBELT	The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.	
<p><b>PPs Submission:</b> Agreed to Comply No grazing land falls within ML area.</p>			Date: 25/05/2026
31	Human Health Environment	Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic: infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.	
<p><b>PPs Submission:</b> Agreed to Comply Noted. The mining operation is limited to initial land development and land purchase during this compliance period. Being mining project, no major construction will be done except mines office, crusher etc. As local people will be engaged during construction and operation phase, provision of housing for workers will not be required. However, all necessary facilities will be provided. Currently, mining activities are being carried out intermittently with limited manpower. At present, it is regulated by a remote office outside the ML area having all infrastructure facilities. Therefore, it is proposed to install portable Bio-toilets at the site to cater to the requirement. During later years when the mine will be operating at full capacity, domestic waste water will be treated in proposed STP and treated water will be used for plantation purpose.</p>			Date: 25/05/2026
32	Corporate Environmental Responsibility	The Project Proponent shall submit the time-bound action plan to the concerned regional office of the Ministry within 6 months from the date of issuance of environmental clearance for undertaking the activities committed during public consultation by the project proponent and as discussed by the EAC, in terms of the provisions of the MoEF&Cc Office Memorandum No.22-65/2017-IA. III dated 30 September, 2020. The action plan shall be implemented within three years of commencement of the project.	
<p><b>PPs Submission:</b> Agreed to Comply Time bound action plan was prepared as per MoEFCC Office Memorandum No.22-65/2017-IA.III Dated 30th of September, 2020 and submitted during grant of EC. Time bound action plan with budgetary provisions is already submitted with the previous Compliance report. Copy of submission of the same to RO, MOEFCC dated 01.12.2021 was attached already with previous Compliance report. The mine is in initial stage of land development and land purchase. It will be undertaken as per the Action Plan submitted.</p>			Date: 25/05/2026

33	MISCELLANEOUS	The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF&Cc.
<b>PPs Submission:</b> Agreed to Comply Noted. Digital maps have been prepared and submitted to this office.		Date: 25/05/2026
34	MISCELLANEOUS	The Project Authorities should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
<b>PPs Submission:</b> Agreed to Comply Noted. As it is a captive mine, Financial closure is yet to happen. Mine lease has already been granted, executed, and registered. Land development work has started from 06.11.2021.		Date: 25/05/2026
35	MISCELLANEOUS	The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEF&Cc & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.
<b>PPs Submission:</b> Agreed to Comply Noted. Six monthly compliance report are being prepared and submitted to the MOEF&Cc and its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board regularly.		Date: 25/05/2026
36	MISCELLANEOUS	A separate 'Environmental Management Cell' with suitable qualified manpower should be set up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEF&Cc.
<b>PPs Submission:</b> Agreed to Comply Noted. Adequate number of qualified Environmental Scientists and Mining Engineers have been appointed to oversee work.		Date: 25/05/2026
37	MISCELLANEOUS	The concerned Regional Office of the MoEF&Cc shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEF&Cc officer(s) by furnishing the requisite data / information/ monitoring reports.
<b>PPs Submission:</b> Agreed to Comply Noted.		Date: 25/05/2026
38	MISCELLANEOUS	In pursuant to Ministry's O.M No 22-34/2018-IA.111 dated 16.01.2020 to comply with the direction made by Hon'ble Supreme Court on 8.01.2020 in W.P. (Civil) No 114/2014 in the matter Common Cause vs Union of India, the mining lease holder shall after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to other mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.
<b>PPs Submission:</b> Agreed to Comply Noted.		Date: 25/05/2026

39	MISCELLANEOUS	The Ministry or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
PPs Submission: Agreed to Comply Noted.		Date: 25/05/2026
40	MISCELLANEOUS	Concealing factual data failure to comply with any or submission of false/ fabricated data and of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
PPs Submission: Agreed to Comply Noted.		Date: 25/05/2026
41	GREENBELT	The Project Proponent shall carryout plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/ Agriculture Department/ Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees.
PPs Submission: Agreed to Comply Noted. No major mining activities have been undertaken after grant of EC and CTO except the initial land development and land purchase. The existing Land purchased is in a scattered form (Non-Contiguous). 5000 Numbers of Fruit bearing saplings have been distributed towards the Jal Ganga Samvardhan Abhiyaan to the Satna district authority. Copy of Acknowledgement receipt attached as Annexure VII. Letter submitted to the concerned DFO was already attached to the previous Compliance report.		Date: 25/05/2026
<b>Visit Remarks</b>		
<b>Last Site Visit Report Date:</b>		N/A
<b>Additional Remarks:</b>		The land purchased is in small parcels and scattered form.
<p><b>Note:</b> This acknowledgement is as per the details submitted by project proponent. In no way is this document to be considered as conclusion on any action on the compliance of the project. This is strictly for the project proponent's reference purpose.</p>
