This Scheme of 'Arrangement and Amalgamation' (*as defined hereinafter*), is intended to restructure these companies and consolidate their business in a manner which is expected to enable better realisation of potential of their businesses, yield beneficial results and enhanced value creation for the said companies, their respective shareholders and stakeholders. The rationale for the Scheme is set out below:
- (i) The Arrangement and Amalgamation will result in financial resources of ODCL, DBL and DCBL being efficiently pooled, leading to centralised and more efficient management of funds, greater economies of scale and a bigger and stronger resource base for future growth, which are presently divided and are getting dissipated amongst different DB Group Companies.
 - (ii) The Arrangement and Amalgamation will result in simplification of the corporate structure of the DB Group Companies with one listed company controlling all the cement companies in the group.
 - (iii) The Arrangement and Amalgamation will result in consolidation of businesses and operations of the DB Group Companies, located in different parts of the country, thereby enabling the group to derive benefits of geographical diversification.
 - (iv) The Arrangement and Amalgamation will provide synergistic integration of the business operations of DB Group Companies thus enabling better operational management with greater focus.
 - (v) Synergies arising out of consolidation of alike and supporting businesses through the Arrangement and Amalgamation will lead to (a) alignment of interest of all stakeholders; (b) improved earnings and cash flow of DCBL as the Transferee Company and (c) improved alignment of debt repayments with cash flow.
 - (vi) DCBL as the Transferee Company will have better leveraging capability due to its enlarged net worth base and increased business capability to offer a wider portfolio of products and services to its customers by virtue of its diversified businesses, enlarged resource base and deeper client relationships, thus improving its ability to effectively exploit the growing market potential and enhanced business prospects for the group.
 - (vii) The Arrangement and Amalgamation will bring about simplicity in working, reduction in various statutory and regulatory compliances and related costs, which presently have to be duplicated in different entities, reduction in operational and administrative expenses and overheads, better cost and operational efficiencies and it will also result in coordinated optimum utilization of resources.
 - (viii) The Arrangement and Amalgamation will result not only in consolidating and improving the internal systems, procedures and controls but will also bring greater management and operational efficiency due to integration of various similar functions presently being carried out in each individual entity within the DB Group Companies such as information technology, human resources, finance, legal and general management, and this will lead to the organization becoming more efficient and capable of responding swiftly to volatile and rapidly changing market scenarios.

- (ix) The Arrangement and Amalgamation will streamline the decision making process, help in better utilization of human resources and will also provide better career opportunities to employees.

Thus, the Scheme, as envisaged, involving Arrangement and Amalgamation would enable seamless access to strong business relationships, closer and better focused attention being given to the businesses which would get integrated, aligned and streamlined, leading to achievement of their full business and growth potential.

Scheme 1, without payment of any consideration or any other distribution/payment being made by ODCL to DCBL in lieu thereof. The reduction and reorganization of authorized, issued, subscribed and paid-up share capital of ODCL made as aforesaid will facilitate the restructuring as envisaged under the Scheme and as such it is an integral and inalienable part of the Scheme.

- (b) Upon the Scheme becoming effective, pursuant to the Court Sanction Order, an amount equivalent to the amount of investments held by DCBL in the form of equity shares and OCRPS of ODCL that shall be cancelled as aforesaid, shall be adjusted by reduction of entire business restructuring reserve and reduction of Rs. 15,32,00,000/- (Rupees Fifteen Crores Thirty Two Lacs only) in the securities premium account of DCBL.  - not in any way adversely affect the ordinary operations of ODCL or its ability to honour its commitments or to pay its debts in the ordinary course of its business since the reduction does not involve any financial outlay/outgo on the part of ODCL.
